THE DEADLY POPPY.

Alarming Extent to Which the Excessive Use of Opium Prevails.

"The consumption of opium in its various forms is a practice that is growing to an alarming extent," said Dr. M. Gaylord Fagoe, a day or two since. "The experience of other physicians might prompt them to say otherwise, but I am confident that this is the case. The form in which it is most used is morphine powders and hypodermic injections of morphine. I don't think the eating of crude opium obtains very much since the same effect can be had in the less objectionable ways. The people who use the drug habitually fall into two classes. They are, first, opium eaters, and secondly, opium smokers and parties and feel the need of something to banish the consequent physical discomfort. It is a noteworthy fact, also, that the female users of opium outnumber the male in about the proportion of five to one. This is doubtless because men get stimulus and narcotic effects from the use of drink and tobacco. And let me say right here that I would rather be a confirmed drunkard than a confirmed opium smoker. Opium deadens the moral sense and makes the user a driving, degraded wretch. You can scarcely find an opium-eater, for instance, who is not an unconscionable liar. I've had ladies come into my office asking for a prescription for morphine, representing themselves to be from the country and wanting the drug to deaden a pain with which they are temporarily troubled. I almost always insist on seeing their arms; in nine cases out of ten I find them scarred from one end to the other by the use of the hypodermic syringe. I have actually had patients whose whole bodies were scarred in the same way. The outcome of opium-eating is that often poverty-stricken women will sell their honor to get the narcotic drug. "All opium eaters are frauds. They all contain opium, and the patient is merely deceived. Such cures may possibly tend to wean people from the habit, but the greatest thing accomplished is to make a big sale for a quack remedy. I think physicians are largely responsible for this wholesale use of the drug in their injudicious prescriptions. It would be better for the public if doctors, when administering opium, would simply give it without letting the patient know what it is. The thing to do, however, is for the legislature to pass a law prohibiting druggists from selling opium and similar drugs except on a prescription from an accredited physician. Indiana now has such a law, and only a short time ago amended it by limiting the number of times a prescription containing such drugs could be renewed without further instructions from a physician. That to my mind is an enactment that every State should pass.—Chicago News.

EFFECTS OF TOBACCO.

How the Weed Affects the Heart and Stomach—Dangers of Nicotine.

Tobacco contains an acid, dark-brown oil, an alkaloid, nicotine and another substance called nicotianine, in which exist its odorous and volatile principles. This description of the active principles of tobacco is of importance to smokers; for, when tobacco is burned, a new set of substances is produced, some of which are less harmful than the nicotine and are more agreeable in effect, and much of the acid oil—a substance quite as irritating and poisonous as nicotine—is carried off. These fire-produced substances are called from their origin the "pyridine series." By great heat the more aromatic and less harmful members of the series are produced, but the more poisonous compounds are generated by the slow combustion of damp tobacco. This oil which is liberated by combustion is bad both in flavor and in effect, and it is better, even for the immediate pleasure of the smoker, that it should be excluded altogether from his mouth and air-passages. Smoking in a stub of a pipe is particularly injurious, for the reason that in it the oil is stored in a condensed form, and the smoke is therefore highly charged with the oil. Sucking or chewing the stub of a cigar that one is smoking is a serious mistake; because the nicotine in the unburned tobacco dissolves freely in the saliva and is absorbed. "Chewing" is on this account the most injurious form of the tobacco habit, and the use of a cigar-holder is an improvement on the custom of holding the cigar between the teeth. Cigarettes are responsible for a great amount of mischief, not because the smoke from the paper has any particularly evil effect, but because smokers—and they are often boys or very young men—are apt to use them continuously or at frequent intervals, believing that their power for evil is insignificant. Thus the nerves are under the constant influence of the drug, and much injury to the system results. Moreover, the cigarette-smoker uses a very considerable amount of tobacco during the course of a day. "Dipping" the pipe has any particularly evil effect, but because smokers—and they are often boys or very young men—are apt to use them continuously or at frequent intervals, believing that their power for evil is insignificant. Thus the nerves are under the constant influence of the drug, and much injury to the system results. Moreover, the cigarette-smoker uses a very considerable amount of tobacco during the course of a day. "Dipping" the pipe has any particularly evil effect, but because smokers—and they are often boys or very young men—are apt to use them continuously or at frequent intervals, believing that their power for evil is insignificant. SONOMA INDEX - TRIBUNE.

SONOMA, FEBRUARY 2, 1888.

CITY OFFICIAL PAPER.

Hereafter obituaries, funeral notices, notices of respect, etc., will be charged for at the rate of 10 cents per line.

LOCAL BREVITIES.

Almond trees are in bloom. The San Luis School will re-open Monday.

The best of accommodations at the Union Hotel.

Schocken always has on hand fresh groceries.

The Occidental Hotel is a first-class resort.

The Union Hotel is first class in every respect.

The traveling public are invited to call at the Union Hotel.

The Union is the leading commercial hotel of Sonoma valley.

D. Christie keeps on hand the choicest of groceries. Try him and see.

The City Trustees meet next Wednesday evening in regular monthly session.

Miss Lilla Vezina of San Francisco is the guest of Miss Annie Raschen.

Of the forty-one attaches in the Assembly nineteen are from Sonoma county.

The traveling public praise the Occidental Hotel, R. D. Moore proprietor.

The fence around the public school lot is becoming dilapidated and needs attention.

Weyl's Cash Grocery Store is selling groceries at the very lowest rates. Call and be convinced.

Canvasback ducks have made their appearance in large numbers in the ponds and sloughs near Schellville.

A twelve-pound salmon trout was caught in Sonoma Creek near the drawbridge by F. Ehrlich, Jr., last Sunday.

An election to vote a tax for the purpose of enlarging the San Luis School house at Schellville will be held shortly.

W. R. Johnston of the Napa Planning Mills Company was in town last Saturday on business connected with his company.

The weather the past week has been delightful, the days being bright, warm and sunny and the evenings cool and bracing.

Wm. J. Dutton, Secretary of the Fireman's Insurance Company, San Francisco, visited his ranch on Agua Caliente creek last Sunday.

The Occidental Hotel, under the management of Mr. R. D. Moore and his estimable wife, is growing in popularity every day.

Dr. F. J. Lane left for Oakland last Tuesday, to be gone several weeks. He will return and re-open his dental parlors in Union Hall on Monday, March 4th.

If you wish your town to look business like and prosperous to the people of the outside world, advertise your business in your local paper. Nothing makes a town appear to be on its last legs as a poorly patronized local paper.

The building boom still continues in Sonoma. J. A. Perkins this week commenced hauling lumber for his new residence on Napa street near the iron bridge. When the Spring fairly opens other residence buildings will be erected.

County Treasurer Stofen was in Sacramento last Saturday and settled with the State. During the Captain's absence, says the Santa Rosa "Republican," Mrs. Stofen guarded the vaults of the County Treasury with amiable courtesy.

The Young Ladies Aid Society of the M. E. Church will give a Valentine Social at Union Hall on the evening of St. Valentine's Day. The admission fee is only 25 cents, and as a pleasant time will be assured to both young and old we expect to see a crowded house.

The road leading from the new iron bridge at the foot of Napa street to El Verano station is being graded and gravelled by Sonoma Valley Improvement Company. The work is being done under the supervision of P. L. McGill, one of the best road builders in the State.

The Agua Caliente Springs Hotel, having been enlarged, renovated and entirely refurnished, will be re-opened to the public on Saturday, December 1st. This is one of the most attractive Summer and Winter resorts on the Pacific Coast and the proprietor solicits a continuance of the liberal patronage heretofore extended to his establishment.

In making mention of the death of Wm. Eldridge in last week's issue our types made us say that he had resided alone in the little house on the hill for ten years. It should have been four years. The deceased's wants during his last and fatal illness were attended to by his son Charles, who came up from the city and was with him when he died.

John Chinaman has been raising a terrible racket in the unsavory precincts of Chinatown the past week, the occasion being the advent of the Chinese New Year. John is no chump in celebrating when it comes to firing off bombs and fire-crackers and the present occasion has been no exception to the rule. On Thursday night the din from exploding bombs and fire-crackers was deafening, the roar being kept up incessantly for several hours.

The Fireman's Ball.

Washington's Birthday will be observed in Sonoma by a grand Fireman's Ball at Union Hall in the evening. Much interest is being manifested by our citizens in the coming event, as the proceeds will go toward improving our Fire Department system. Every business man in the community ought to take hold of the matter and assist the members of the Sonoma Volunteer Fire Department, under whose auspices the ball is to take place, to make it one of the grandest and most successful events of the kind that has ever taken place in Sonoma.

The formation of the Sonoma Hook and Ladder Company is but the commencement for the organization in Sonoma of a Fire Department system that with proper encouragement will become in the course of a few years our boast and pride. Therefore, we say, let all our people put all petty prejudices aside on this occasion and show for once that they can all pull together. It is for the interest of the town.

Napa Planning Mills Company.

To those intending to build we take pleasure in calling attention to the advertisement of the Napa Planning Mills Company, which appears in another column. For many years the people of Sonoma Valley have purchased all mill work, such as brackets, doors, sash and blinds etc., in San Francisco, for until the completion of the Santa Rosa and Carquinez Railroad last year the planning mills of that city had no competitor in this section. Railroad connection with Napa and Santa Rosa, however, has placed the city at a disadvantage in this respect. The management of the Napa Planning Mills Company were not slow to recognize this fact and in consequence are reaching out for the trade of this valley, which they are bound to secure, owing to the accessibility of their mills to Sonoma Valley towns, cheap freight rates and the low price for all mill work turned out by them, which in some cases is from 25 to 30 per cent less than is charged by city planning mills. Before purchasing elsewhere be sure and let the Napa Planning Mills figure on your mill bill and you will be the gainer thereby.

Artesian Wells.

Another flowing artesian well was struck in on S. Schocken's property on Spain street this week. The flow, which amounts to 36,000 gallons per twenty-four hours, was struck at a depth of one hundred feet from the surface. This makes the fourth flowing artesian well developed in this city within the past year. Water from these wells burst forth from the bowels of the earth at the rate of 250,000 gallons per 24 hours. It is Mr. Schocken's intention to erect a tank of some 50,000 gallons capacity and utilize the water for domestic and other purposes.

The Mirror of Ireland.

This renowned combination of mirth-makers that appeared in Union Hall in September, 1887, and gave the best entertainment ever presented to a Sonoma audience, will hold the boards at Union Hall again next Tuesday evening, February 5th. The company comes to us stronger than ever. In addition to the favorites Dan, Josie and Morris Sullivan, Mr. M. Oscar Doungan, a great San Francisco favorite, and Mr. Guss Mortimer, late of the Roland Reed Combination and one of the best negro impersonators in America, will appear. Secure your seats for the hall should be crowded to see Kitty from Cork.

The following is taken from the Sacramento Daily Record-Union of last Tuesday: Last evening the Dan Morrison-Sullivan Company drew a crowded house at their performance. The acting was hugely enjoyed by one and all and lost none of its richness in being repeated but rather to the contrary. Mr. Sullivan's imitation of "Barney" and "Dutchy," two widely different parts was skillful and amusing and brought the house down in roars of laughter. At the close of the performance the youngsters were showered with prize boxes which "Barney" drew out of his large old cloth carpet bag which he had brought from "Deutschland." The performance was a grand success.

An exchange thus fitly describes the term "local enterprise": "If you can think of anything to be done to beautify or build up your town, go and do it; keep your capital at home; patronize home industry; help your merchants to sell more goods, so that they can sell more cheaply; always get your work done at home, if possible; subscribe and pay for your home paper, don't borrow or steal the reading of it. If you follow these directions and your town does not improve and build up, it is not your fault."

Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50c and \$1.00 bottles by all leading druggists.

R. D. Moore of the Occidental keeps a first-class house.

MEMORIO MORI.

(Remember Death.)

Attila F. Haraszthy.

To-day, just a year ago, departed from our midst our cherished friend and honored citizen ATTILA F. HARASZTHY. It is the prompting of a grateful and loving heart that induces us to write these lines. We can from where we sit in the distance see the sacred spot where he now lies peacefully at rest. He sleeps, but his grave, his silent tomb, will with sweet flowers ever be covered, and over his breast the violets will bloom and their perfume, as an incense, shall there ever rest, and though his dust with in the grave shall lie, the noble name of Attila Haraszthy will never, never die.

There are names of men whose useful, active lives in the cause of art, science and in all those duties that make life on earth more beautiful and more glorious that could only be recognized by their own true, legitimate and well-known names—names that stand out in embossed with a royal, aye! a divine lustre that no earthly plan could change.

Attila Haraszthy was born in Hungary, April 16, 1835, and died at the age of 52 years, 9 months and 17 days. He was the eldest son of Agoston Haraszthy, whose family was one of the oldest and most influential of the ancient nobility of Hungary, the name appearing frequently in the history of that country over a period of 760 years.

His father, at the age of 18, was a member of the *Garde du Corps* of Emperor Ferdinand, composed of nobles, and in the State of California was a pioneer and the founder of the Horticultural Society in this valley, which afterwards was transferred to their metropolis. He was the first to advocate the raising of vines, planted the most extensive vineyards, and put himself at the head of the wine interest.

Colonel Haraszthy may with justice be called the Father of Viticulture in California. Old settlers can remember when he was located in our vicinity—the lovely spot of Buena Vista.

The subject of this sketch inherited, like also his brother Arpad Haraszthy, love for the development of the wine industry, which has become at present a motor of public wealth over our glorious State. As a citizen he acted prominently and honorably in all the interests of the place which he selected to reside in. When our city was incorporated he was chosen by the unanimous vote of the people a member of the Council, and his colleagues complimented him by his election as Chairman of the Board. At the time of his death he was Vice-President of the Sonoma Valley Bank which trust was held for years, owing to his active and zealous care manifested for the interests of said institution.

In 1863 he married one of General Vallejo's daughters, founder of the counties of Solano and Sonoma, and from which happy union four children were born.

According to the rules of nobility of the aristocratic countries of Europe the eldest son is the representative of the family. Mr. Haraszthy was unostentatious, but his hand and heart were always open to the needy. As a member of society his character was unblemished, and his word was always considered as good as his bond.

Had he settled in a more public spirited community we are sure he would have accumulated a capital, but fickle fortune turned her wheels against him. Attila F. Haraszthy sleeps, but his memory will long be cherished for.

"None named him but to praise him."

With his bereaved widow and children we join in mourning the loss of him, ever loving and kind, and let them remember that angels will keep watch over the good wherever they sleep, guarding the gates of Heaven where he dwells until his spirit, clothed anew, shall arise.

As the last words of this obituary we exclaim in Latin: *Esto perpetua.*

February 2, 1888.

"Don't advertise unless you have something worth buying. Many persons suppose advertising alone is sufficient. This is nearly as bad an error as to suppose that having the goods is sufficient alone," says a trade journal. "This reminds us of a little story we once heard of a boy who was sent out in the summer with a bag of green corn to sell. The boy was gone all day, and returned with the bag unopened, which he dumped on the floor, saying: 'There is your corn, go and sell it yourself, I can't.' 'Sold any?' 'No,' said the boy: 'I've been all over the city with it and nobody said anything about green corn. Two or three fellows asked me what I'd got in my bag and I told them it was none of their business.' The boy reminds us of some business men we know of who do not recognize the benefits of advertising."

The best of accommodations at the Occidental Hotel.

Agua Caliente Items.

There are a number of guests at the Agua Caliente Springs, and the hotel is doing a rushing business for this season of the year.

H. C. Mannel has a large force of men at work at this place and the Agua Caliente quarries are now among the best and most extensive as well as the most accessible in the State.

W. P. Wilson and sons are busy putting the finishing coat of paint upon Frank Weiler's new building. This, when completed will be one of the most road-side saloons in the county and will no doubt receive a large share of patronage, as it is well-known that Frank always keeps good stuff.

Workmen have been for several days engaged in grading and graveling for the new station of the Santa Rosa and Carquinez Railroad at Agua Caliente. The establishment of a station at this place will prove of great convenience to the public and an additional source of profit to the railroad company.

Mrs. H. Appleton has been appointed Trustee of the Agua Caliente School district, to fill the vacancy caused by the resignation of M. K. Cady upon taking his seat as a Supervisor of this county. The following are the names of the pupils of this school who appear on the "Roll of Honor" for the month of January: Laura Baigalupi, Sadie Cady, Stella Johnson, Sophie Penning, Ludwig Steiger, Anna Theiss, Lena Baigalupi, Leonide Johnson, Zulma Johnson, Hermenia Steiger, Lillie Steiger.

The members of the Hook and Ladder Company turned out for the first time last Wednesday evening for practice. The truck was hauled around the Plaza and thence down Broadway in double-quick time until the Congregational Church building was reached. Here the truck was brought to a standstill. The ladders were taken off the truck and run up the side of the tall building, and it was clearly demonstrated that although this was the first practice night, the truck and firemen would come in a mighty handy in case of fire. The third Wednesday of each month has been set for the regular practice night of the company, which no doubt will become very efficient in the course of a few months.

Hereditary.

My father died of Cancer, and the same trouble developed near my right eye in 1883. It was at first a strawberry color, but changed to purple, and grew to the size of a partridge egg. My right eye became much inflamed, and the dreadful disease was rapidly wasting my life away. I used quite a number of remedies, but without benefit. At this crisis I began taking Swift's Specific. The improvement was apparent in a few days, and I continued to use until the cancer was entirely gone and my health fully restored, and I know that S. S. S. alone did it, because I left off all other treatment. It saved me from this hereditary Cancer, which went away over two years ago and left not a sign, and I owe my life, under Providence, to S. S. S.

Mrs. LAURA E. DEGAN, Dawson, Ga., Sept. 26, 1888.

During the early part of the past spring (1888), my body was covered with boils. At one time more than fifty was counted on my body and limbs. My face was not exempt from the painful trouble. The usual remedies would do me no good. Just why I began taking S. S. S. I do not know, but almost immediately I began to improve. I took nearly three bottles, and found myself entirely well. It was your medicine which effected the cure, when everything else had failed. Yours truly,

J. H. FORDHAM, Staunton, Va., Aug. 1, 1888.

Boils.

ABBEVILLE, B. C., Oct. 20, 1888.

I was the victim for five or six years of the worst boils that I ever saw, which the doctors failed to cure. I began S. S. S., and in a short time the poison was driven out of my system, and not a sign of boils or any other blood trouble has returned. I recommend S. S. S. to everybody.

Swift's Specific is entirely a vegetable medicine, and is the only medicine which has ever cured Blood Poison, Scrofula, Blood Humors and kindred diseases. Send for our books on Blood and Skin Diseases, mailed free, THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga.

The INDEX-TRIBUNE office is prepared to turn out on short notice all kinds of job printing, such as Cards, Tickets, Blanks, Posters, Receipts, Bill Heads, Statements, Pamphlets, Note Heads, Programmes, Letter Heads, Visiting Cards, Funeral Notices, Justice's Blanks, and everything in the line of printed matter, at fair prices and in good style. Satisfaction guaranteed.

The division of Sonoma county is being agitated by the Headsburg papers, and a bill will be introduced the present session of the Legislature having for its purpose the establishment of Sotoyome county, with Headsburg as the county seat.

Does it Pay?

Three-fourths of our people are troubled with Dyspepsia or Liver Complaint in some form or other, which by nature of the disease has a depressing influence on the mind or body, preventing them from thinking or acting clearly in any matter of importance. Indigestion, coming up of food after eating, dyspepsia, sick headache, acidity of the stomach or any derangement of the stomach or liver (upon which the whole action of our system depends) are speedily and effectually overcome by the use of Green's August Flower. The most stubborn cases have yielded to its influence, as thousands of letters received will testify. The immense sale of this medicine is another guarantee of its merits, (over a million and a half bottles sold last year.) So we ask, will it pay you to suffer from any of the above diseases when you can have immediate relief in the August Flower. Three doses will prove its worth. It is sold by all druggists and general dealers in all parts of the world.

MISCELLANEOUS.

ST. JACOBS OIL.

TRADE MARK. THE GREAT REMEDY FOR PAIN. Acute Torture Cured.

7 DOCTORS. "The New York Morning Journal" says: "Mr. J. O. Kellogg, 50 Kan 8th street, lay for seven days in convulsions. He employed the best medical skill, but his case baffled their best endeavors. One physician after another was engaged and discharged, until seven different doctors had tried to cure or help him, but he failed. He spent four weeks at a health resort, but his case remained a problem which could not be solved. His body was in a paralytic condition."

1 BOTTLE. "Her death was looked for at any time. Every-thing looked as if she was doomed. A leading pharmacist was tried, until her case was given up as hopeless. At last, reading of the wonderful cure effected by the use of the celebrated St. Jacobs Oil, she began to improve from the time the first application was made. By the continued use of this great Remedy, Mrs. Kellogg has completely recovered."

ITS CURES ARE WITHOUT RELAPSE, WITHOUT RETURN OF PAIN. Sold by Druggists and Dealers Everywhere. THE CHARLES A. VOGELER CO., Baltimore, Md.

SYRUP OF FIGS.

A PLEASANT SENSE OF HEALTH AND Strength Renewed, and of Ease and Comfort.

A BIG STRIDE!

Up to last year we pursued the stereotyped plan in vogue everywhere of buying our furniture, etc., from the San Francisco jobbers. That entailed upon our customers the payment of three separate profits, viz.: the manufacturer's, the jobber's and our own. As freight can only be brought from the East in full car-load to import directly, but we decided to try it.

With many misgivings, in July of last year we sent our first car-load order to the Eastern manufacturers. The car was loaded at the door of the factory in Michigan and came straight through, arriving in August. The quality of the goods and their prices was as much a surprise to us as to our customers. We could sell them Eastern hardwood furniture at about the price they have been paying for cheap California Pine Furniture. It is needless to say that

Our Venture was a Success.

We continue to send in our orders, and shipments now reach us monthly and we are dealing in but little else. For these reasons we are now selling

Furniture at Less than San Francisco Wholesale Prices.

And in proof of this statement we ask intending purchasers to come and see our goods, get our figures and before buying compare them with San Francisco prices, and then there can be no question.

We are selling Fine Antique Oak Bed-Room Sets of eight pieces for \$35, that are quoted in San Francisco at \$45.

Square Top Extension Tables in Hardwood for \$18, that are sold in San Francisco for \$22.

Body Brussels Carpet we quote you at prices you have heretofore paid for Tapestry.

Smyrna Rugs, Portiers and Window Shades are also among our Eastern importations, and we give the same advantage in those lines. In short we are now giving Sonoma county people the middlemen or jobbers profit on everything in our line.

Come and get our prices and you can prove it in anyway you like before purchasing.

PANDORA'S OPAL.

When Hope was left to muse alone
Within Pandora's box, she found
Whence all the other spirits had flown,
The world was really discontented.

And more than all the tedious maid,
Whose eyes had found a worthy mate,
Beside the box she sat weeping,
And yielded to her melancholy.

But while her tears, unnumbered, flowed,
Impatient Hope alone, untroubled,
Began freedom from her strait bonds
With promises of comfort needed.

Pandora yielded, raised the lid,
And gentle Hope spread wings of pity,
And by the kindly deeds she did,
Cheered young and old, to field and city.

But ere she took her flight,
Beside the box she lingered, sighing,
In play or a tear drop bright,
Thus on her slender hand was lying.

Her uttering words of myriad tales,
Hung o'er the drop, and when she vanished,
As day, in the sunlight's gleam,
Lay shining, and the tear was banished.

And so, through all the changing years,
An opal speaks of the winter
But yet of hope that stills our tears,
And bids us wait a brighter morn.

— Helen Martin in Providence Journal.

Not a Home for Invalids.

To be plain, the City of Mexico is not the proper place for a prolonged sojourn of invalid tourists. The robust can do very well here for a few weeks, but even here, would enjoy the winter weeks in fewer local towns like Aguascalientes, Guadalajara, or little towns like Orizaba or Cuernavaca. Here it is impossible to have a fire in your hotel room, as such a thing is absolutely unknown. A lamp will, it is true, heat a room sufficiently to take off the chill, but this is not the way for an invalid to live. There are cities and towns here where no need of a fire will be felt the winter through. For those of us residents who have gone through the not wholly comfortable process of acclimatization and are fairly robust, a winter is quite a different thing. Its cold is gently bracing, the appetite never sharp in tropical latitudes, picks up a bit, and one goes about his business with more energy. But I defy any man or woman of northern blood to live here a few years and have that vitality, that certain vigor, that one possesses in ruder climes to the northward. There are some correspondents who ask if a stay in this city "would be beneficial for persons afflicted with rheumatism?" Decidedly not. Anywhere in the country but in this ancient town, built on a swamp and utterly undrained.—Cor. Boston Herald.

It Was a Pretty Fool.

The funniest incident of my trip was in a sleeping car. It was in the morning, when the passengers had got out of their berths, and only several sets of curtains were drawn in front of still slumberous persons. Suddenly a foot was thrust out between two curtains. It was small, white and symmetrical—not more than a feminine number in sight looked soft and fine. The men glanced at it from the corners of their wicked eyes. The women deprecated the exposure. Then a bold, brazen fellow went right straight to the pretty foot, grabbed the ankle, and flung the whole member rudely into the berth.

"He wouldn't treat his bride so," said a woman close by. "It must be his sister."

Then the head of a 10-year-oldurchin emerged where the foot had been, and a sleepy, angry, boyish voice said: "Look here, Sam, you let me alone. Next time you touch hold of my foot that way I'll kick the gizzard out of you."

There was a subsidence of sentimental interest and a risibility of mirth.—Cincinnati Enquirer.

Not an Unlucky Number.

The following curious story serves as an illustration: "A soldier in the time of William and Mary was tried by a court martial on a charge of having fallen asleep at midnight when on duty upon the terrace at Windsor. He denied the charge, and solemnly declared (as proof of his having been awake at the time) that he heard St. Paul's clock strike thirteen. While under sentence of death affidavits were made by several persons that the clock actually did strike thirteen instead of twelve; whereupon, he received his majesty's pardon." This statement was engraved upon the coffin plate of the old soldier.—Magazine of American History.

Durham Mustard.

Mustard was little known at English tables until 1720, when a Mr. Clements, residing in Durham, began to grind the seed in a mill, and to pass the flour through several processes necessary to free it from the husks. He kept her secret to himself for many years, during which the sold large quantities of mustard throughout the country, but especially in London. Here it was introduced to the royal table, where it received the approval of George I. From the circumstance of Mrs. Clements being a resident at Durham it obtained the name of Durham mustard.—San Francisco Argonaut.

Pathetic Even if Humorous.

There is almost no man of pathos as humor in the following story of an Albany boy of tender years: Shortly after his mother's death, he, with his father, visited her grave, being carried there by a horse which his father had recently bought. The boy, standing apart from the grave, was naturally in a contemplative frame of mind; and the boy, being unable to stand the oppressive silence any longer, lifted his childish voice and said: "Ma, we've got a new horse."—Portland (Ore.) News.

Stand for Truth.

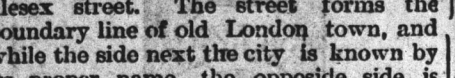

I am neither author nor factor of any sect. I will have no man addit himself to me; but if I have anything right, defend it as truth, not mine, save as it conduces to a common good. It profits not me to have any man fence or fight for me, to flourish or take my side. Stand for truth and 'tis enough.—Ben Jonson.

For Dry Goods, Clothing, Groceries, Hardware, Cutlery, and also everything kept in a general merchandise store go to S. Schocken's, north side Plaza, Sonoma.

MISCELLANEOUS.

MARIN AND NAPA.

SONOMA VALLEY RAILROADS.

TIME SCHEDULE.

Takes Effect Dec. 2, 1888.

Mail & Passenger—Week days only

then if he will turn and walk back on reaching the end of the street he will find the identical handkerchief in its old position. The thrifty seller has in his employ one or more small boys whose sole duty is to follow purchasers and bring' from them their newly acquired property."—Chicago Mail.
